You're an HR Director at a trucking company and are looking for a faster and more effective way to onboard new hires.

You're a CFO at a trucking company and sometimes ponder easier ways to improve bottom line profitability.

WHAT OUR CLIENTS ARE SAYING:

"I really actually learned a lot. It was a great forum to allow somebody to concentrate on what the program has to offer, as opposed to being distracted or influenced by your normal work activities. Well worth attending, even if you don't end up getting the Infinit-I program, I still learned a lot from the program, and it is definitely worth your time. It's a short day and a half, and it's well worth it."

EHS Director

"I came to [boot camp] to try to bolster the safety department and bridge the gap in communication between shops, maintenance, operations, and the drivers. You can be as compliant as you can be, but if you don't follow along with the documentation part, it means absolutely nothing in the court of law. Vertical Alliance goes out of their way to put on a good show for everyone. It's definitely more than what I envisioned it would be."
